Your Gateway to Success!

In the fall, days seem shorter as there are fewer hours of sunlight and the first frosts appear. Leaves turn from green to red, orange, yellow and brown before they fall from the trees. Temperatures can change quickly from day to day but average around 20 degrees in September to 5 degrees in November. You may need a coat, mittens, hat and boots first thing in the morning but only a light jacket later in the day. It's also a good idea to carry an umbrella in November as the weather during the fall is usually rainy and you can expect the first snow in November.

Riddles for **TEENS**

• Answer

1. What goes up but never comes down?
2. What can't be kept until it is given?
3. What gets sharper the more you use it?
